

#### Qualifications

- Bachelor of Mechanical Engineering with Honours (2001)
- Doctor of Philosophy in Mechanical Engineering (2005)

#### Affiliations

- Member of the Acoustical Society of New Zealand (MASNZ)
- Member of the International Institute of Acoustics and Vibration (IIAV)
- Associate of the New Zealand Planning Institute (Assoc.NZPI)

Since founding AES in 2006, Jeremy has worked on a large number of successful and high-profile projects in building, environmental and industrial acoustics.

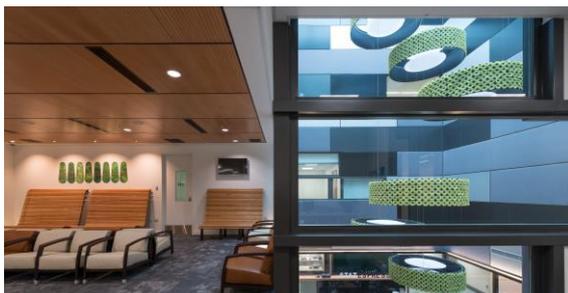

Jeremy enjoys the challenge of working with a building design team to ensure the acoustic design contributes to a successful overall project outcome. Jeremy also has considerable experience in environmental acoustics including the preparation and presentation of evidence at Council Hearings, Environment Court and before Boards of Inquiry.

Jeremy was a member of the latest Ministry of Business, Innovation and Employment (MBIE) group working to revise Clause G.06 *Airborne and Impact Sound* of the New Zealand Building Code, and a member of the ASNZ working group advising the Ministry for the Environment (MfE) regarding the *National Planning Standards (2019)*. Jeremy is also the AES Member Representative for the Association of Australasian Acoustical Consultants (AAAC), and in 2019 served as a judge for the Association of Consulting Engineers of New Zealand (ACENZ) Innovate Awards.
